PROFESSIONAL EXPERIENCE

Software Development Engineer II

Healthians | Feb 2023 – Present

- Healthians presented unique challenges in the healthcare domain, which required creative problem-solving skills. I honed my ability to analyze complex issues and develop efficient, reliable solutions.
- Optimizing the performance and scalability of the software systems to handle growing user loads and data volumes. This included architectural improvements and code optimizations to deliver a seamless user experience.
- Upgraded the version of existing project.
- Built microservices with Go for scalable web applications. Created AWS Lambda functions for serverless tasks, connecting with other AWS services. Developed background workers in Go to handle tasks like data processing and notifications efficiently.
- Managing and Mentoring a team.

Software Development Engineer

Healthians | Aug 2021 – Jan 2023

- Worked as SDE, wrote CRUD operations in CodeIgniter.
- Designed schema for back-end application.
- Managed Healthians CRM.
- Worked on AWS also for uploading files on S3, Async insertions through SQS and wrote some Lambda function in Go.
- Enhanced some User Interface and Added some new features.
- Done some implementation and integration of API

Trainee Software Developer

Surflex Technology Pvt. Ltd | Mar 2020 – Aug 2020

- Created some web pages in Core Php.
- Worked on a Hospital Management Project with team.
- Developed a website using wordpress.
